NATURE PAINT BRUSHES

Take a nature walk and gather material to make these easy natural paint brushes.

MATERIALS

- Gathered natural materials - some suggestions are sticks, grass, flowers, leaves, pine needles, or fern fronds
- Washable paint
- Twine, string, or rubber bands
- Paper

INSTRUCTIONS

1. Bring a bucket or reusable bag on a walk and gather natural materials.
2. Work together to make paintbrushes. Sticks make great paintbrush handles. Gather the desired material for the brush tips and wrap it with twine or string to keep it together. For smaller hands, you can use rubber bands.
3. Play with different textures and colors!
