Explore mixing colors and get some gross motor movement with this "wheelie" fun painting style.

**MATERIALS**

- Paint
- Tray or pan with sides
- Large paper or cardboard
- Cars or trucks with wheels that move and are water washable

**INSTRUCTIONS**

1. Pour paint onto the pan, tray, or directly onto the paper. If you are pouring directly onto the paper, keep in mind that it may take much longer to dry. Primary paint colors work great for mixing and teaching children about color theory.
2. Run your chosen car(s) through the paint until the wheels are covered.
3. Transfer your cars to the paper and zoom zoom zoom!
4. Get creative! What else in your house can you roll through the paint?
