CLOUD DOUGH

Soothe away the rainy day blues with this super soft 2-ingredient cloud dough.

MATERIALS

- 2 cups corn starch
- 1 cup hair conditioner
- Large bowl
- Food coloring (optional)

INSTRUCTIONS

1. Add 2 cups of corn starch to a large mixing bowl.
2. Add in 1 cup of inexpensive hair conditioner. Choose a conditioner that is unscented or that has a scent your child enjoys.
3. Mix the ingredients together with your hands. As you knead it the dough will become pliable and very, very smooth. If the dough seems a little dry, work in a small amount of conditioner. If it's too sticky, add in more corn starch.
- Optional: Add color. Flatten out a ball, and add in 2-3 drops of food coloring into the center and knead it in. Keep in mind that food coloring will discolor skin, so use gloves for clean hands.
4. Store in an airtight container.
